

HYPNOTISM WITH MUSIC

There is nothing wrong with praise and worship music in the House Of Adonai, but it must never take priority over the preaching and teaching of the Word of Adonai. Under normal circumstances, the time spent singing should never be close to the time spent on the Word during the service. Many in the clergy have found this a way to do less work. They have conned, (many unpaid), musicians into singing for hours to cover their inability to teach the word of Yah effectively to their flock. In many cases the praise and worship leader has become the only shepherd.

One of the most effective methods used today by counterfeit revivalists, teachers, and preachers, to work their babes in Messiah into an altered state of consciousness, is music. Although music can be extremely helpful for healing, teaching, and praise, and worship, it can also be manipulated to alter peoples consciousness. One of the most popular guaranteed successful methods of getting people into a trans-hypnotic state, is to sing a song over and over until participants lose their touch with reality. This is exactly the same principal used by Eastern Religions, but they actually give it a name. They call it mantras. By repeating anything long enough, one can work himself into an altered state, allowing the unseen demonic spiritual realm to subdue them. Some of the fraudulent healers have admitted to cases

where they sang the same song for as long as three hours to create an atmosphere of total unawareness to reality.

When people get in this state of mind they are hyper-suggestible and are willing to listen to any so called truth that is put into before them. They, by allowing this soul power to overcome them, have forbidden their mind to think rationally, and critically, and have opened the door of their mind (Deut. 6:8) to the latent power of the soul, which Satan then uses to get his hook in their mouth. These people are then open to any and all mystical experiences that then take place. Because of their altered state of consciousness, their ability to test the spirits is handicapped, and they slip into the realm of the demonic. It is an open invitation for Satan and his secret agents to slip into the soul side of the consciousness without being detected as they normally would be. It is situations like this that give the local witches opportunities to do their work right in the midst of Christian services.
