**Most Muslims don't even realize that Mohammed was totally illiterate, and yet he supposedly wrote the Koran.** Mohammed's wife Khadijah was a Roman Catholic nun, and Mohammed's advisor was her cousin Waraquah, also a Catholic. When Mohammed received his visions in the cave in Mt. Hira (near Mecca), his top dog advisor Waraquah was the one who interpreted his visions for him. These interpretations became part of the Islam book of the Qur'an. It was under Waraquah's direction that Mohammed conceived the great lie of the Qur'an. The lie that said that Abraham offered Ismael as the sacrifice instead of Isaac (Gen. 22). Mohammed had other unpublished works

in which he explained his connection to the Vatican by way of his revelation of the Virgin Mary. The religion of Islam and the Vatican are connected, and both have incredible information on each other, if exposed, this information would destroy them. This information is secretly guarded by both sides. They are simply bed partners.

After Mohammed's daughter Fatima died, he wrote that she was the most holy of all women, next to Mary.

Islamic doctrine is similar to the Catholic doctrine, which teaches that all people who are not following their faith are going to hell. The Qur'an (Sura 9:5) sates "Fight and slay the pagans wherever you find them". This sounds silly coming from a pagan system, but the followers of this system don't seem to see the hypocrisy there. They are not a religion

of peace, they are in fact, just the opposite. The theology of Islam insists that Islam triumphs over everything else. That is why when you visit an Arabic city you will find the prayer tower in the highest place in the city. At the core of Islamic theology is the belief that God is a single unassailable entity, and that to think of him as having multiple natures, is blasphemous. The word "Islam" itself doesn't mean "peace", like many proclaim. It means "submission", to Allah's laws and will. The one who submits is a "Muslim". The world's largest mosque is located in Islamabad, Pakistan.

This Baal worship, as it is called in the Bible, is spoken of in **Num. 22:41** "*And it came to pass on the morrow, that Balak took Balam, and brought him up into **the high places of Baal**, that thence he might see the utmost part of the people*". The Roman Catholics also often build there pagan palaces on hilltops overlooking, (claiming) the area as theirs, in the name of their false god. This pagan practice has been going on throughout history, and is well documented. As long as Israel exists, their triumph based theology cannot be affirmed. It flies in the face of all Muslims. There are many Muslims that believe that anyone who will not confess that Allah is God, that Mohammed is his prophet, and that the Qur'an is the perfect fulfillment of Gods word, should be put to death. Islam is a religion of triumphalism, it is believed by them that time and history are on their side, and eventually all will come under their control and belief.

It is no surprise that Muslims want to take over the entire world. Their attitude of domination by any means has allowed them to instigate what they call "holy wars," upon

people or places that don't hate the Jewish people like they do. During holy wars, (Jihad), Muslims that die serving the religion of Islam, are (they claim) to receive special status in what they believe to be heaven, as a martyr. Many Muslims will commit themselves to suicide (as in suicide bombers), in order to destroy people they don't like, during terrorist bombings. One of the most renowned Muslims (anti-Messiah's), causing terror throughout the world is Osama Bin Laden from Afghanistan. Him, along with the likes of Saddam Hussein (a dead anti-Messiah of the last days), and millions of other terrorist Muslims, is on the most wanted list of almost all nations of the world for his outspoken religious Islamic beliefs.

The Islamic "black stone of Kaaba" is claimed to be a meteorite, but this is incorrect, it is nothing more than a rock.
