

LIQUID SATAN..."A WORD OF KNOWLEDGE"

I would like to share something that Yahveh revealed to me in 2004 when my best friend died of breast cancer. My friend Bobbi, was born again and felt very secure in her walk with Dad. She was at ease with death and not afraid of it.

She had it revealed to her that she was going to die of cancer. Her doctors told to get chemotherapy in order to prolong her life. She didn't want anything to do with it because she knew in her heart it was not something Yahveh wanted her to do.

Her children caused such a fuss over the situation that she ended up going against her better judgement, hoping to make the kids happy, and proceeded to take the chemo. From that moment on everything went down hill rapidly, and she spent her last days in front of the toilet bowl. It was terrible to say the least. She was not upset with Yah about the situation because she knew she went against His will to satisfy her children's desire. If she would have refused the chemo she would have lived a shorter length of time, but it would still have been considered living; whereas what she went through after receiving chemo could for sure not be considered living by any exaggeration.

During this terrible experience Yahveh revealed to me that chemotherapy was "**Liquid Satan**". I have never forgot this word of knowledge and have since understood the depth of that phrase. Let me explain what was revealed to me.

**What The Cancer Industry
Does Not Want You To Know
About Chemotherapy and Radiation**

- Radiation-induced secondary cancers have exploded in the last two decades due to radiation treatment
- 90% of chemotherapy patients die 10-15 years after treatment and the cause is never attributed to treatment
- More than 50% of all cancer patients suffer significant treatment-related toxicity.
- Chemotherapy does not eliminate breast, colon, or lung cancers yet chemo drugs are still used on these cancers.
- Patients who undergo chemo are 14 times more likely to develop leukemia and 6 times more likely to develop cancers of the bones, joints, and soft tissues than those patients who do not undergo chemotherapy.
- Chemotherapy drugs directly damage DNA
- Chemotherapy actually boosts cancer growth
- 68% increase in Chemo drugs since 2003
- 75% increase in cancer projected by 2030

Life

Our immune system is there to protect us. It is there to destroy everything and anything that comes into our body that is bad, foreign. The cells of our system attack and destroy the foreign bodies that enter our body. The duty of our immune system is to preserve our life, by destroying that which is attempting to destroy it. You might say that our Immune system represents Yahveh who brings life. Everything about LIFE is in our

Living Word (Lev. 17:11). The basic principal of torah you might say is LIFE. Yahveh is our light, our life. His word brings us life.

Death

On the other side of the coin, we see Satan, who destroys what is good and thrives on destruction, killing life. Chemotherapy is represented as the devil. When one receives chemotherapy the immune system is literally destroyed and made mute, dead. Then they try to build the system they have just destroyed back up in the name of pharmacy.

The simple truth, whether people want to hear it or not is, most of the doctors working in this system, and everything interacting with it, make their living off cancer. Prolonging so-called life in their patients while drawing out all the money they can from the government and private systems who pay for cancer treatments. We are talking big bucks, big business, and we are talking typical pharmacy. Billions of dollars are spent on cancer patients every year, not to cure the patients, but to make money off them in one way or another. I'm sure there are exceptions to this rule, but in reality, it is still the rule. Selah.
