THE SEAL OF AMERICA--FOUND ON THE \$1.00 BILL

In the following pages we will have a close look at the real meaning behind the Great Seal Of America, commonly found on the \$1.00 bill. One of the most occultic symbols (seals) ever created in the Free World, represents America. The Illuminati and Mason societies were given the job of creating the American Seal. It took them six years to complete the task. The seal was to represent 13 colonies of the United States, which just happened to be a very secret number to the Masons. It is believed that Dr. Adam Weishaupt himself designed the mystical seal. This final Mason design for the seal was accepted June 10/1782 and delivered to Thomas Jefferson June 17/1782. The two plaques of the seal were presented to Jefferson, in a red velvet bag, by a hooded Mason, in Jefferson's Monticello drawing room in Virginia. It was declared "The Great Seal Of The United States Of America" by the Constitutional Congress, and officially accepted along with the U.S. Constitution Sept. 15/1789. The words "Great Seal," just happens to be "Mahamudra," in Sanskrit, meaning, "the union of all apparent duality and the supreme joy that comes with the realization of mystical union".

In 1776 the Masons, Jesuits, and the Illuminati, helped form the United States of America. The Illuminati, as far as the world was concerned, was formed in Bavaria by Dr. Adam Weishaupt in May/ 1776. These two secret societies were involved in the American Revolution, French Revolution, Bolshevik Revolution, and the Chinese Cultural Revolution, besides others of the last 200 years.

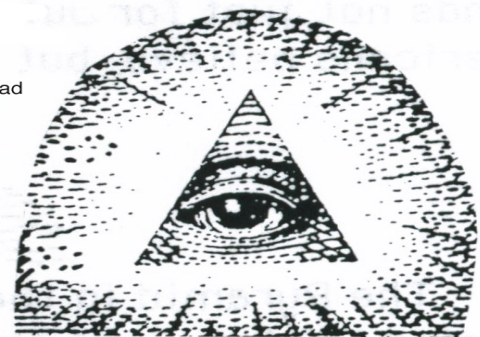

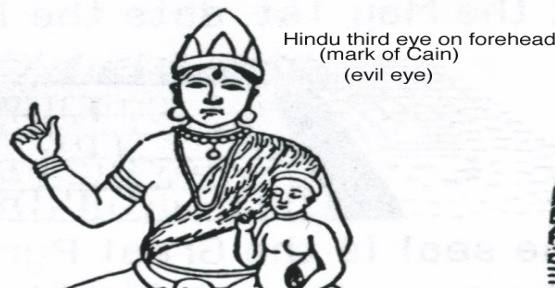

Thomas Jefferson was a principle architect of the Declaration of Independence for the US. Jefferson, Benjamin Franklin, and John Adams worked together on the original draft. Jefferson had by far more influence on the final draft. All three men were Masons.

The fact that the man, Franklin D. Roosevelt, who just happened to be a member of the Illuminati and a 32nd. degree Mason, put the Great American Seal on the \$1.00 US bill back in 1933. It is still on the dollar bill today. This was a secret symbolic act that for the most part only Freemasons, and Illuminati understand to this day. Because the seal represented "unity," one can understand the strange signs and symbols that are revealed when the two seal plates are put together or overlaid.

The Illuminati, and Masons walked hand in hand years ago; although the Illuminati, some believe, have simply been absorbed into the Free Mason (Shriner), Society.

It was in 1782 that the Freemasons and Illuminati of Europe joined together and became known as the "Grand Orient Lodge".

The first US coin struck back in 1787 had a pagan SUN god symbol on it.

SEAL "A"

1. The eye in the top of the triangle is commonly referred to as "**the all seeing eye of God's wisdom,**" and the light which streams out from the triangle, supposedly, represents the light of God's wisdom. However, the god they are referring to is "Lucifer". This eye is also known to many as the "Third eye," which is seen on the forehead of many pagan Hindu women. To the Hindu it represents the pagan sign of "Cain". This "eye" is also symbolic for the god of "Baal", (the god of "Jupiter"), the "solar eye". Sometimes this third eye is called the "Eye of God's Wisdom", a Masonic symbol, or represents "big brother is watching". The "eye" sometimes represents "The Great Architect of the Universe"(GAOTU), "**The Grand Geometrician of the Universe**", "**God**", or "**Yod**". The triangle it

is enclosed in is a mystery symbol for wisdom, strength and beauty, (the trinity) sometimes also called the "house of Rothschild". This eye in the capstone of the pyramid is familiar to all Masons, Illuminati and Rosicrucians, for they use it in their lodges as a great secret symbol. The well known Pope of Masonry, Albert Pike openly admitted that the Mason's god was Lucifer.

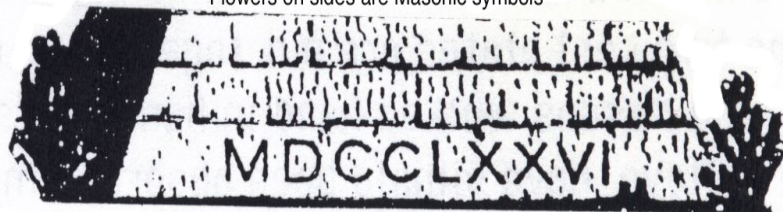

2. On the front top side of the seal, the two words around the periphery "Annuit Coeptis," (Latin) have various interpretations as follows: **"Year of beginning"**, or **"Announcing the birth, creation, or arrival"** or **"New Secular Order"** or **"Satan agrees with the conspiracy which has been started"**.

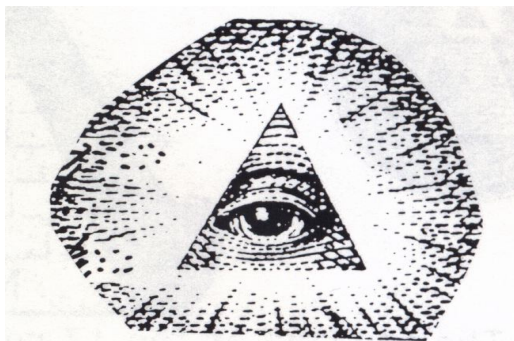

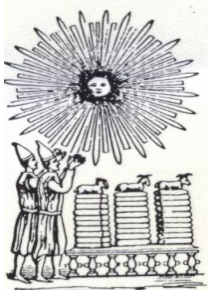

3. The "Novus Ordo Seclorum" has been translated in mysticism to mean, **"Announcing the arrival of a new secret order of this age"**. Others translate it to mean, "The Established Order of the Ages Looks Favourably Upon our Endeavors," or **"Announcing the birth of the New World Order"**, or **"A completely Godless New World Order"**, or **"Henry Kissinger's code name for One World Government"**.

Flowers on sides are Masonic symbols

4. The date or numerals, among other things. The 1776 date at the base of the pyramid stands not just for July 4th., the Declaration of Independence as most Americans believe, but the May 1st. date the Illuminati was founded.

5. The Pyramid in the seal is the Great Pyramid at Gizeh. The top is missing, to show that the cap-stone, or the "lost word" is missing. The Pyramids were built by Yahveh, not any Pharaoh. They were not built to bury Pharaoh's, but carved out of divine structures that were later used to house the secrets of pagan customs of ancient times. They held the secrets of gods like Amen, Horus, Ra, Osiris, and Thoth. These secrets form the basics for all the modern Hermetic mystery schools of pagan societies. The capstone consists of 13 layers like the main part of the pyramid. "13" is another

secret number representing sin, rebellion and iniquity. The capstone is sometimes called the “House of Rothschild”.

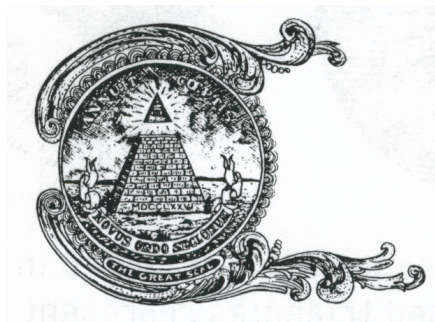

6. Behind the capstone of the pyramid is a “sunburst,” giving honor and reverence to the SUN god Baal.

7. The ends of the scrolls are in the shape of a “fork”, which again is a secret symbol representing Satan’s forked tongue.

8. The shrubs on either side of the pyramid are secret Masonic symbols.

9. The seal itself is round, representing the shape of the SUN god.

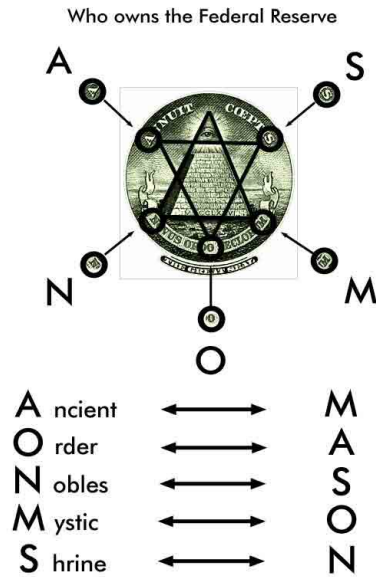

13 steps (layers)

10. There are 13 steps (rows of stone), in both the capstone and main pyramid. The 13 levels of

the pyramid relate to the original 13 colonies that the Illuminati were established in. The number “13” in the Kabbalistic mystery religion, represents something rebelliously evil: Satan, sin, serpent, murderer, dragon, Belial, tempter or rebellion.

11. The top row of the 13 rows on the bottom part of the pyramid stands for the “council of 13,” and “Top 13 witches”(on the East coast of America controlling Wall Street, N. Y. finance).

12. The second from the top 12th. layer, represents the council 33 top Masons from the Masonic Lodge (an honorary degree which issues statements and directives to those below, from those above).

13. The third layer from the top symbolizes “Council 500/World Bank and I.M.F. (the 500 richest banking families in the world, who are in the know).

On the American dollar bill pyramid, in Latin, at the beginning, middle and end of the latin words: “Annuit Coeptis” and “Novus Ordo Seclorum” you will find the following:

A stands for **ancient** M
 O stands for **order** A
 N stands for **nobles** S
 M stands for **mystic** O
 S stands for **shrine** N

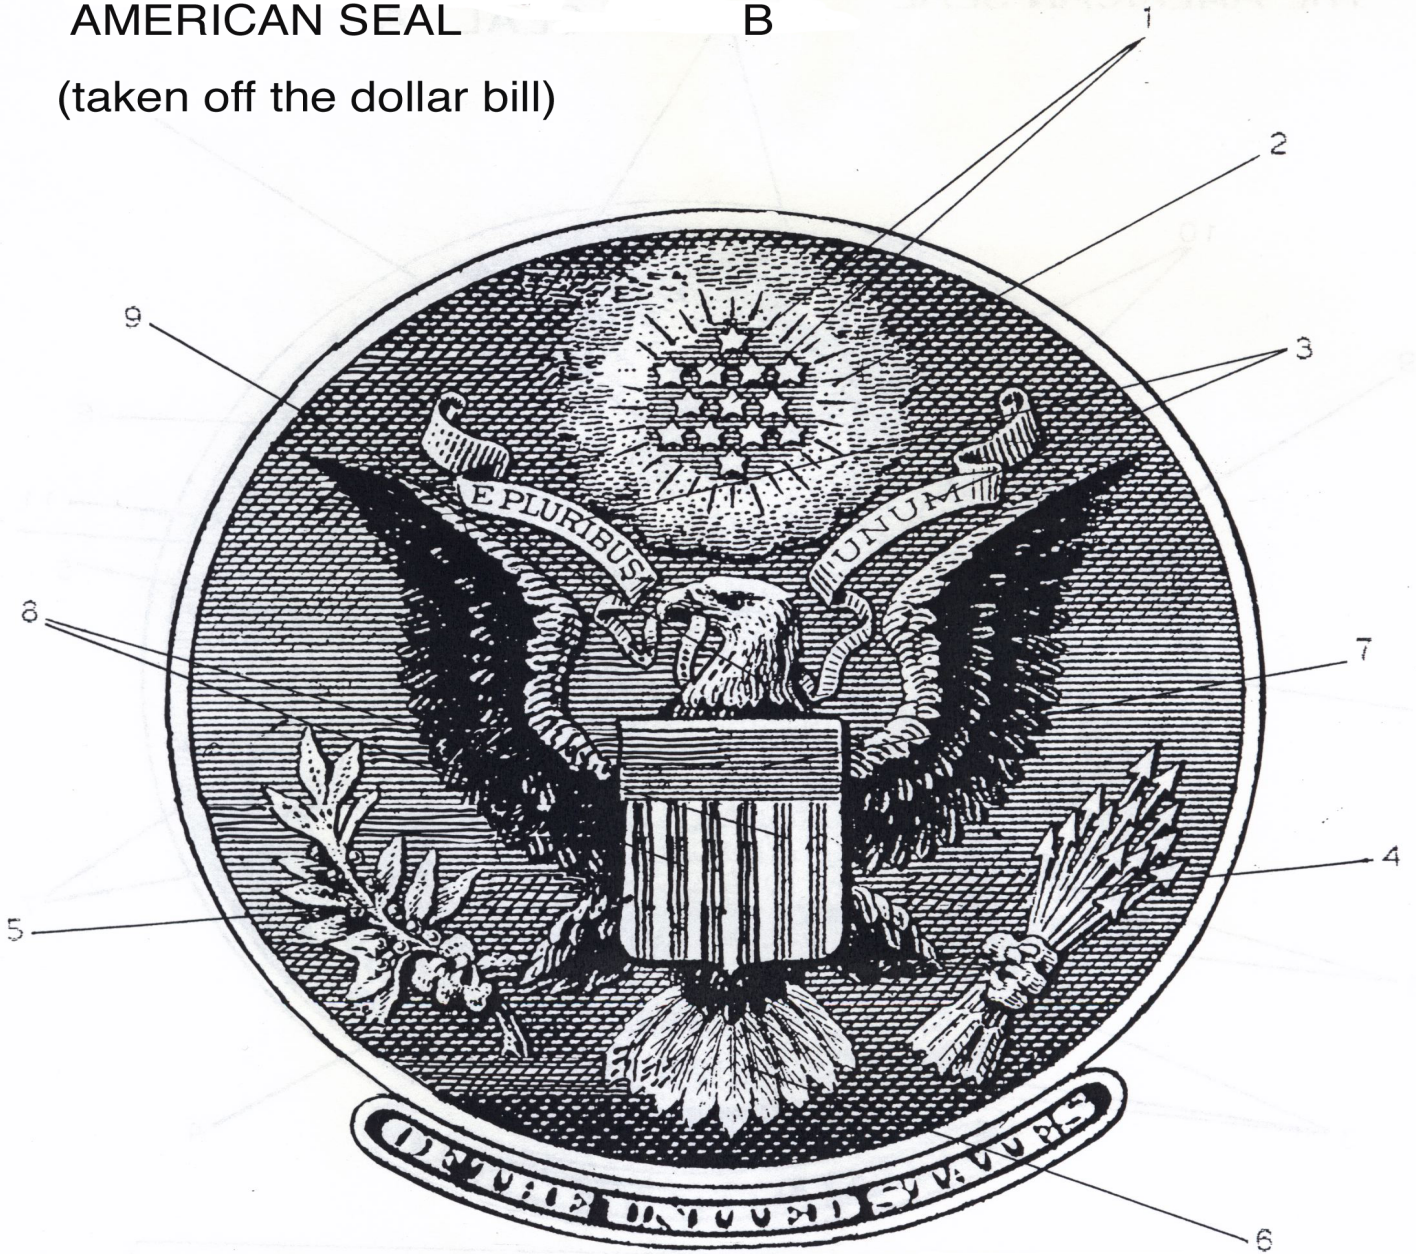

When re-arranged you can see what these letters represent.

AMERICAN SEAL

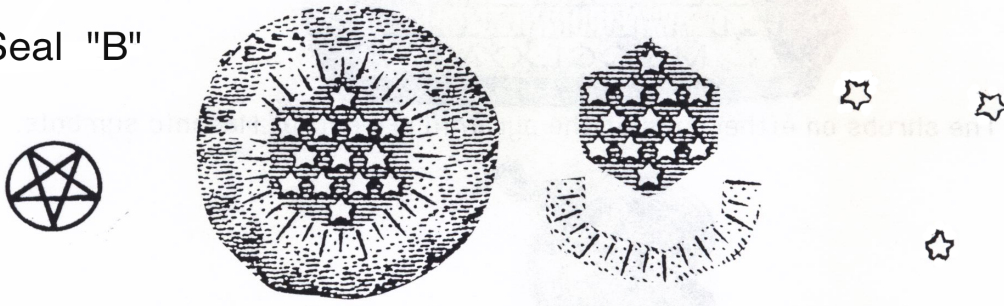

B

(taken off the dollar bill)

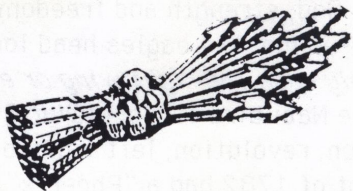

Seal "B"

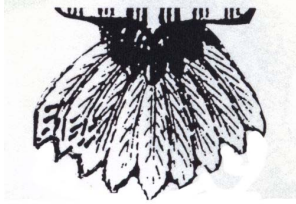

1. The stars above the Eagles head are arranged in a "Magen David," or "Shield of David". The interlaced triangles represent **"the union of the two realities"**; the union of god with man. The infinite with the finite, or the spiritual with the physical. They are more correctly known as "the Seals of Solomon". Solomons five pointed seal is used by witches as a means of protection against evil spirits. They stand inside the star which itself is inside the circle, sometimes called the "circle of satan". (Satanists do their rituals and ceremonies inside a circle). This Magen David is made up of 13 pentagrams in the form of a hexagram. The 13 small five pointed stars above the eagles head are entirely mystical, probably representing contempt for the Jewish people. The five pointed stars may represent the "five Masonic points of fellowship", the five human senses, the five celestial Buddhas, the five great evils of Buddhism (ignorance, wrath, desire, malignity, envy), or the five precepts of Buddhism. This same five pointed star was what the Jews were forced to wear in Germany at the time of the war.
2. The sunburst represents the SUN god.

3. "E Pluribus Unum," written on the scrolls attached to the eagles beak, are Latin for: "one out of many" or "Giving order to chaos by uniting the many into one".

4. The "13" arrows in the right claw are symbols of war and military might, the thirteen arrows represent strength to defend. They are also symbolic of Nimrod and Horus, the mighty hunters.
5. The olive branch is supposed to represent peace, and the fruits of peace, but if you look closely you will see there are "13" leafs and "13" berries. Note: we keep seeing the number 13.

6. There are “9” tail feathers on the eagle, which is not natural; the number “9” has sacred meanings for the Masons. The nine tail-feathers of the eagle represent the nine beings of the innermost circle of enlightenment in the “Great White Brotherhood,” or the “Illuminati”. In the Bible, nine represents finality, or, the end.

7. The twelve horizontal lines on the eagles shield represent “perfect one world government”.

8. The six vertical bars of three dark lines each interspaced with seven white spaces yield the following geometrical analysis: “Sinful man (6), of the dark trinity (3 dark lines), in opposition to the Seal of god, or the seven churches of Messiah (7 white spaces).”

9. The Eagle (one of the largest members of the vulture family), has been used for centuries by ancient religious philosophies as a pagan symbol of deity/divinity. The Eagle is a member of the vulture family, to many this appropriately represents the United States Of America. It is supposedly used here to represent God, strength and freedom. At one time the golden Eagle was the symbol of Rome. The eagles head looks to the right, symbolizing “it looks favorably upon the right wing or established order,” as compared to the eagle of the Nazi bird of World War Two, which looked to the left to represent rebellion, revolution, left wing, or change. The original seal of the US government of 1782 had a “Phoenix” bird on it, not an eagle like most were taught. The Egyptian Phoenix was represented as having the body of man and the wings of a bird. The Phoenix was a symbol of regeneration recognized by the mystery religions of Babylon, (Rome) and still has reverend meaning to the Illuminati and Masons.

10. Look closely at the area around the number “1” in the four corners of the dollar bill and you will see it has a spiders web behind it. Spider webs are used as occult symbols, especially by the Satanists.

11. Now look even closer to the left of the number “1” and you will see a tiny “owl” sitting on the frame around the number one. The owl is another occult

symbol. It is not coincidence that the Bohemian Grove secret society has a huge owl idol they worship. The membership list of the Bohemian Grove Secret Society has included every Republican and Democratic U.S. president since 1923, cabinet officials, directors, and CEOs of large corporations, including major financial institutions.
