

## HEGELIAN DIALECTIC

### NEW WORLD ORDER GOVERNMENTS USE WITCHCRAFT TO CONTROL THE MASSES

Yah established for humankind an order, His theocracy. He made it clear from the start that leadership and government started in the home, with His instructions as the guide. The husband covered his wife and Yeshua covered the husband. He explained to the people to have leaders of tens, leaders of fifty, leaders of hundreds, leaders of thousands, and so on and so on. This is the origin of what is called government today. The people were not satisfied, so they decided to make themselves Kings to rule over them. At first the King's were holy men who lived by torah and studied so they could make wise decisions for the people they had under their leadership. It used to be leadership at one time. The King worked for his people and did everything to make life peaceful for humanity. It used to be that Kings ruled the nations. The Kings used to always do what was best for the people. Then things turned around, the Kings decided to take from the people by means of taxes, enough money to run the nation with plenty set aside for their own greed. Soon they quit leading at all and only got into politics for the control and money it made available to those who were ruthless. For many years now we have called these King's, Prime Ministers, and Presidents. These leaders in most cases, do nothing but what is good for their particular political group (tribe/clan). They could care less about the people, they only care about keeping their positions in the government and having their friends there with them, fleeing society.

Some say their government leaders are voted in or elected by the people, but most people know that no-matter who they vote for, the outcome is pretty much the same. They all wear the same suits, just different colors.

They claim in the system of democracy that the majority rules, but we all know the one who spends the most money in the election gets elected.

These decisions are made long before the elections are even started. The people who control the economics of the nation choose whom they want to run things, and they alone decide who will be their leader. It doesn't matter if it's a democracy, a dictatorship, or communism, it's all about manipulation, control and domination over the people. This is witchcraft!

Many of the politicians grease their own palms and the palms of their family, friends and relatives, while the average people work hard everyday going nowhere. One percent of the world's population own and manipulate 90% of the world's money. What the politicians

leave behind the rich businessmen of the world scoop up by various business means, supposedly guided by the idea of supply and demand. "The rich get richer and the poor get poorer" is not just a cliché, it is reality. All of this manipulation, control and domination is done with Satan's guidance, he is the master of this witchcraft. He controls the world and that is how he controls the governments of the world. With the leaders completely corrupt, the average citizen hasn't got a chance. He gets some scraps from the table once in a while but that's about it. The governments convince they are doing all these things for the good of the people, for the security of the nation. Lie, upon lie, upon lie in the name of security.

These leaders of nations are all working for the anti-Messiah. Some honest sincere people may even go into office but the moment they take the pledge of allegiance or whatever oath they are made to take by the government, they curse themselves to be under the control of the Deceiver. You cannot be born again and Believe and follow the God of Abraham, Isaac, and Jacob and work in the leadership of the government. You must be able to lie, deceive, control, and manipulate the people without a soul in order to be a King. They quickly become corrupt like all the rest and stand together to get what they can from the pig trough.

## HEGELIAN DIALECTIC

One of the well known methods (witchcraft), the leaders have been using for thousands of years is now described as Hegelian Dialectic. Hegelian Dialectic is a framework for guiding thoughts and actions into conflicts that lead to fake solutions which can only be introduced once those being manipulated take a side that will advance the predetermined agenda. Controlled opposition, problem- reaction-solution. In politics this idea has been used for thousands of years. You create the problem to produce the change, bring about the direction that you really want everyone to go, but you have to swing the general mindset to go in a particular direction in order to get there.

Biblically speaking it is simply witchcraft. **“Witchcraft is the manipulation, domination, or control of anyone or any group of people by any means other than the Holy Spirit.”**

Realistically, almost all those in authority of all secular organizations, businesses; from small community groups, mayors of town's, cities, right up to Presidents, Prime Ministers, King's and Queen's etc. use witchcraft to get what they want, whether they realize it or not. Some know exactly what they are doing in the demonic realm, they are part of the New World Order of things. Some just want to control and manipulate others for their ego. Those manipulating usually do it for financial reasons.

Manipulating people is normal for a large percentage of the population, especially those who control the world's finances, that's why we can clearly say that Satan is the god of this earth. Through his "workers of iniquity" (lawless servants), many involved in secret societies who specialize in witchcraft, he controls all those who are not truly born again in this world. If you've ever paid attention to politicians you will see how they are constantly making deals back and forth so their particular legislation will make it through. They are making deals undercover in order to get what they want for their party. Again, it's witchcraft, commonly called politics.

Those who are born again are part of the Kingdom of Yah, which is in complete contradiction to the others, live in this corrupt world, but are not part of it. They are affected by it in many worldly ways while residing on earth, but await their spiritual Kingdom to come, when all those sinless wicked people will be placed in the Lake of Fire for their eternal reward.

PROBLEM, REACTION, SOLUTION

Let's look at an example of Hegelian Dialectic in common use on a regular basis in our personal lives.

- A You recognize or establish a problem, real or not, it makes no difference. For example: Let's say a person is rejected by society, not receiving enough attention.
- B The "reaction" is that they invent drama, catastrophes, illnesses, crutches, fear, to cause focus on the problem, so they get peoples attention.
- C The "solution" is; you receive attention from family, friends, strangers, etc.

Let's assume you want a particular religious agenda to be instituted. You know that secular society will not allow you to force this upon them. Instead, you bring in an apposing view, an exact opposite view which becomes totally unacceptable to the populous, forcing them in the direction of where you want them to go. In this way, you manipulate people into doing what you want them to do without directly pointing them in that direction. This is like taking a pendulum and swinging it all the way to the side you don't want it to go to, and letting it go. It will swing back to where you want it to go with a very strong force.

Forty four presidents of the US carried European bloodlines into office. Thirty four have been genetic descendants from just one person. Charlemagne, the brutal eighth century King of the Franks. Nineteen of

them directly descended from King Edward the third of England. In fact, the president with the most royal genes has won every single American election. (This information comes from the Burkes Peerage, which is the bible of aristocratic genealogy, based in London). Every Presidential election in America, since and including George Washington in 1789 to Bill Clinton, has been won by the candidate with the most British and French royal genes. Of the forty two Presidents to Clinton, thirty three have been related to two people: Alfred the Great, King of England, and Charlemagne, the most famous monarch of France. So it goes on: nineteen of them are related to England's Edward the third, who has 2000 blood connections to Prince Charles.

What the ruling elite does, and have been doing for centuries, is create reactions which requires solutions they had wanted all along. The reaction (e.g. 9/11) puts citizens in a state of fear and anxiety that allows easily implementation of the solution without resistance.

One way you know the government is using the Hegelian dialectic to fulfill their agenda is when they have a ready-made solution immediately after an event, all without public debate.

In a sense Hegelian dialectic is like reverse psychology, get the person to do exactly what you want

them to do by pushing them the exact opposite way. Get them to do what you want them to do by pushing them or causing them fear of the issue you don't want them to do, until they are overwhelmed by it and go the opposite way.

A related use of the Hegelian dialectic is to create the appearance of healthy governmental opposition. We see this in the United States where both Democrats and Republicans are two heads of the same body. They create a theatre show for the public that two opposing forces are debating and compromising to serve the interests of the nation when they are actually both controlled by the same globalists who donate money to both parties. The

"cuckservative phenomenon" has shown that

mainstream conservatives are nearly identical to the left besides a few hot button issues like abortion and religion (they have even converged on homosexual marriage).

In the West the choice is basically between a controlled 'left-oriented' information, and a controlled 'right-oriented' information. The conflict between the two CONTROLLED groups keeps an apparent informational conflict alive. Unwelcome facts that fall into either camp are conveniently forgotten. Books that fall into either camp can be effectively neutralized because they will incur the wrath of both 'right' and 'left'. "The faster the cattle run, the faster the treadmill takes them to nowhere".

To sum it all up it would be appropriate to say what Hitler once said: "if you tell a lie long enough, it becomes truth".

Hegelian Dialectic is a framework for guiding thoughts and actions into conflicts that lead to fake

solutions which can only be introduced once those being manipulated take a side that will advance the predetermined agenda. Controlled opposition, problem- reaction-solution. In politics this idea has been used for thousands of years. You create the problem to produce the change, bring about the direction that you really want everyone to go, but you have to swing the general mindset to go in a particular direction in order to get there.

I submit to you, could the people who really run the government of America, be using oligarchs like Donald Trump to cause so much confusion, fear, hatred and anger to purposely cause the people to demand someone else come in and take control? Could there be someone sitting on the sideline that those who really control the government have ready to come onboard to serve exactly the way they want him too. Who is that someone? This has been the case for hundreds of years already in America? **This is manipulation, domination, or control of anyone or any group of people by any means other than the Holy Spirit.” This is witchcraft!**

## CONFLICT

In the Hegelian system conflict is essential. Furthermore, Hegel, from which we get the name of the system, and systems based on Hegel, the State is absolute. The philosophy behind it all is comes from both Hegel and Kant. The European Union to this day honors them both as the founders of the European agenda. The State requires complete obedience from the individual citizen. An individual does not exist for himself in these so-called organic systems but only to perform a role in the operation of the State. He finds freedom only in obedience to the State. There was no freedom in Hitler's Germany, there is no freedom for the individual under Marxism, neither will there be in the New World Order. If it sounds like George Orwells 1984 description, it is indeed.

The operational history of the Secret Societies (Illuminati, Jesuits...New World Order), can only be understood within the framework of the **Hegelian dialectic** process. This is how the order creates war and revolution. Create two different directions (thesis and anti-thesis) and put them together to cause synthesis (the final stage in the process of dialectical reasoning, in which a new idea resolves the conflict between thesis and antithesis). This is in simple terms called The New World Order. Every Nation has a political party on the left and on the right. There is really no point to vote because the issues have already been decided before any election transpires. This is the basis of Hegelian dialectic.

### Quotes:

**President Woodrow Wilson:** "Some of the biggest men in the US, in the fields of commerce and manufacturing know that there is a power so organized, so subtle, so complete, so pervasive that they had better not speak above their breath when they speak in condemnation of it".

**Karl Marx said:** "Capitalism is thesis and communism is antithesis". The Jesuits proclaim and support both capitalism and communism. They put the two against each other so people fear what's going on in the world and fall in line with the One World Order.

Could the endless conflicts in the Middle-East be examples of Hegelian Dialectic? The Members of the

United Nations claim to do everything possible to fight terrorism, yet the Members give millions of dollars in direct and indirect support to the Palestinian Terrorists (Hamas & Hezbollah), for their agenda of destroying all Jewish people anywhere in the world. Members have been contributing millions of dollars since to the UNRWA (United Nations Relief and Works Agency for Palestine Refugees in the Near East) a subsidiary organ of the UN formed by the UN in 1949. They have also contributed over 365 million dollars to the UNRRA ("United Nations Relief and Rehabilitation Administration"). Through this organization Hamas is financially supported for food, weapons, economic aid, jobs, construction, infrastructure, utilities, radical education (school materials), political opportunities, etc. They can use this money in any way they desire and they desire to use it to destroy every Jew they can.

They claim that each time there is a war, Israel has the right to defend itself; they claim to support Israel; yet they are in fact supplying weapons and supplies to the Terrorist Palestinians. In common English this is called "being two-faced". **1Cor. 10:21** ***“You cannot drink the cup of Yahveh and the cup of demons; you cannot partake of the table of Yahveh and the table of demons.”***
