

SATANISM Pt. 1 of 2

The following pages are for those serious warriors that want to know their enemy better. I don't go into depth here, because I don't want to promote Satanism in any way. My objective is to outline some of the things that should be of interest to all "Bible Believing People" everywhere. It is a simple fact, that it is easier to destroy your enemy if you know things about him. Here I have laid out some very basic items of interest, that should open up the secrecy of Satanism as an occult worship system. Please beware, this is quite graphic.

It is the popular misconception that the Satanist does not believe in a god. The name "God", as interpreted by man, has been misunderstood by most Christians for centuries. New Agers, Satanists, Buddhists, Mormons, Muslims, etc., all believe in a god, but because most Christians never specify which God they are referring to, the Satanist can comfortably sit among them and feel at home. It is the fault of the so-called Christian leaders and clergy that this takes place simply because they never specify which god they serve in their services. They rarely say the God of Abraham, Isaac and Jacob or the God of Israel, and less than that, mention His actual real Hebrew names: Yahveh, Adonai, Elohim etc. This lack of reverence may have cost many people their hope of eternity in Heaven.

The kingdom of Satan runs exactly the opposite of Yahveh's Kingdom. Satan's kingdom operates on the principle of competition.

The nine Satanic statements of Anton LaVey's Satanic bible are:

1. Satan represents indulgence, instead of abstinence.
2. Satan represents vital existence, instead of spiritual pipe dreams.
3. Satan represents undefiled wisdom, instead of hypocritical self-deceit.
4. Satan represents kindness to those who deserve it, instead of love wasted on ingrates.
5. Satan represents vengeance, instead of turning the other cheek.
6. Satan represents responsibility to the responsible, instead of concern for psychic vampires.
7. Satan represents man as just another animal, sometimes better, more often worse than those that walk on all fours, who, because of his divine spiritual and intellectual development has become the most vicious animal of all.
8. Satan represents all of the so-called sins, as they all lead to physical, mental, or emotional gratification.
9. Satan has been the best friend the church has ever had, as he has kept it in business all these years.

The seven steps satanic groups/false prophets use to infiltrate churches:

1. They declare openly their faith in a god, but like many churches themselves, never actually say what god they proclaim to follow. The charismatic, mostly Pentecostal churches, are openly gullible to this alter call kind of profession to a god never specified.
2. They build their credibility by monetary contributions. The church is very vulnerable to this because they will always take money without questions. By giving money they automatically become respected leaders and teachers. The fact is, you will rarely find poor people on the churches board of directors.
3. One of the goals of satanists is to kill the power of family group prayer in the church. They destroy the prayer base of the church by getting the families and people to be separate, so there is no power block of prayer. They develop separate programs for women, men and children, to keep the parents separated from their children as much as possible. They promote men's breakfasts (Promise Keepers type), women's prayer groups, children's groups, teen-age (youth) groups, 50 plus groups, senior groups, etc., to separate the family members and keep them from praying in power blocks of family units.
4. They spread rumors in the church to cause dissension among the members.
5. They usually take on teaching positions within the church. SUNday school teachers could be Satanists because few people want to teach the children. They then set the children up with strange beliefs that they eventually use to lead them into an occult group.
6. They stop all accurate teaching about Satan. They commonly promote the following type teaching: They say teaching about Satan gives him glory, and takes peoples minds off Yahveh.
7. Trough curses, they directly attack members in the physical, emotional and spiritual realm, so they become sickly and in-effective.

The seven deadly sins of the Christian church are: pride, greed, envy, anger, gluttony, lust, and sloth (lethargy/passivity). Satanism advocates indulging in each of these "sins," as they all lead to physical, mental, or emotional gratification.

Satan operates through people, three of his goals are:

- 1) To steal your attention, or distract you from Yeshua, keep you from doing what you know is right, keep you from reading and learning anything about Yeshua.
- 2) To kill your spiritual senses
- 3) To to destroy your life, through depression, anxiety, drugs and or suicide.

Satan represents indulgences, rather than abstinence. Satanists use free sex of any kind and nudity as common attractions for recruits.

People who indulge in the occult receive power, understanding and knowledge from Satan, these are some of the obvious advantages of getting involved. They fail to realize that Satan's ultimate goal is to kill them when their usefulness is gone.

Those who practice spiritism or get involved in the New Age Movement may appear to only be caught up in a passing fad, but like a spider, Satan spins a very sticky web of intrigue, appeal and innocence that eventually leads deeper into Satanism. Satan has a sharp barb on the end of his fishing line and when a person takes a good bite he pulls him in like a fish. This barb at the end of the line is always covered with attractive bait. In spite of the Bible's warning, some people nibble at the bait, harmlessly for a time, unaware they are going against their creator. But they never know when Satan will jerk the line and set the hook.

Satan wants us to point our finger at others for all our problems. He doesn't want you to think it's ever your fault when things go wrong.

Any so-called religion that denies redemption through the blood of Yeshua, every philosophy that denies the divinity of the Messiah Yeshua, including yoga and TM, everything psychic is occultic.

The four crown princes of hell as per the Satanic Bible are:

1. Satan (Hebrew) for adversary, opposite, accuser, Lord of fire, the inferno, the south.
2. Lucifer (Roman) for bringer of light, enlightenment, the air, the morning star, the east.
3. Belial (Hebrew) for without a master, baseness of the earth, independence, the north.
4. Leviathan (Hebrew) for the serpent out of the deeps, the sea, the west.

Going to hell is the ultimate goal of satanic worshipers. It is an easy goal to achieve.

Satanism encourages its followers to indulge in their natural desires. They claim that the highest plateau of human development is the awareness of the flesh. They believe only by doing so, can you become a completely satisfied person with no frustrations, which can be harmful to yourself and others around you.

As per the Satanic Bible: The use of a human sacrifice in a Satanic ritual, does not imply that the sacrifice is slaughtered "to appease the gods". Symbolically, the victim is destroyed through the working of a hex or curse, which in turn leads to the physical, mental or emotional destruction of the "sacrifice" in ways and means not attributable to the magician. It is said, that the only time a Satanist would perform a human sacrifice would be if it were to serve a two-fold purpose: that being to release the magicians wrath in the throwing of a curse, and more important, to dispose of a totally obnoxious and deserving individual. This is untrue, satanists sacrifice humans for the power they receive for doing it, and for eating and drinking the flesh and blood of the sacrifice, be it human or animal, live or dead.

SATANIC HIGH HOLY DAYS

The highest of all Satanic holidays is ones own birthday. After ones own birthday, the two major Satanic holidays are Walpurgisnacht and Halloween (All Saints Day, All Hallows Eve).

In North America there are many holy days for Satanists. They are: Christmas, Easter, April 30th (Hitler's birthday), Halloween, and as close as possible to the first day of spring, summer, fall and winter.

At the time of the summer equinox yearly Satanists kidnap children and prepare them for the "Grand Climax" ceremony which involves a first born male baby being sacrificed alive during a high ceremony. Any children born of the occult members may also be used for this ceremony.

During special holy days, when human sacrifices are used, the body is decapitated, the flesh is ground up and the bones are buried. Flesh is often taken and mixed with blood, drugs, and other substances (urine

from the master and high priestess etc.), and eaten by those who want more power.

WALPURGISNACHT

Walpurgisnacht gets its origin from the Roman Catholic church. St. Walpurgisnacht, or Walpurga, or Walburga, depending on the time and area in which one is referring to her. She was born in Sussex about the end of the seventh century. She was a Roman Catholic nun whose uncles were St. Boniface (the Pope), and St. Willibald. She became the Abbess of the Benedictine nunnery at Heidenheim, Germany. She died on Feb. 25, 779. Her body was buried at Eichstadt. She was laid in a hollow rock, from which exuded a kind of

bituminous oil, afterwards known as Walpurgis oil, regarded as having miraculous effects on disease. The cave became a pilgrimage sight of Catholicism, and eventually a great Roman Catholic church was built over the spot. She is commemorated at various times but mostly on May 1st. Amazingly enough, all the rigmarole was found necessary simply to condone the continuance of the most important pagan festival of the year, the grand climax of the spring equinox. This eve of May has been memorialized as the night that all of the demons, specters, afreets, and banashees would come forth and hold their wild revels, symbolizing the fruition of the spring equinox.

BLACK MASS

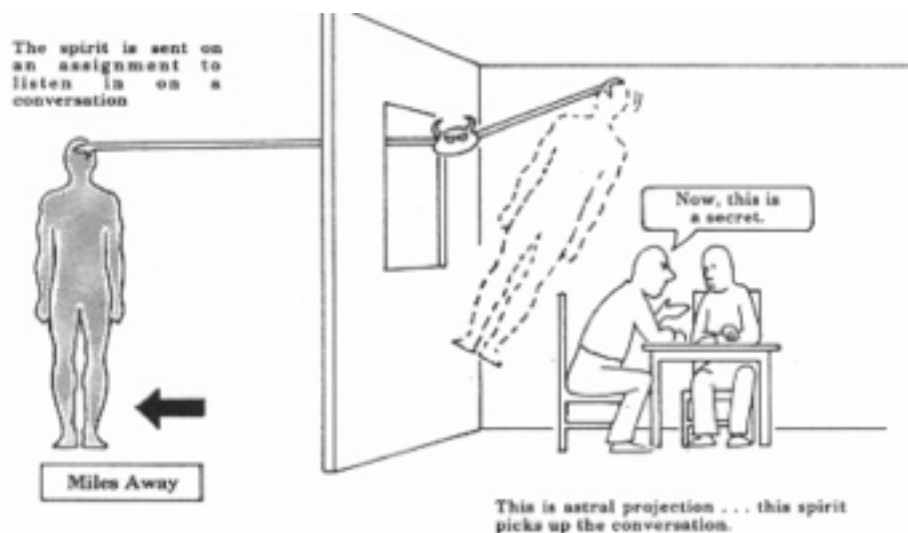

This celebration is done at the time of year when Christians celebrate EASTER, (which represents the goddess of ISHTAR). No other single device has been associated with Satanism as much as the black mass. To say that the most blasphemous of all religious ceremonies is nothing more than a literary invention, is certainly a statement which needs qualifying, but nothing could be truer. The black mass is of course another Roman Catholic Pagan ritual that many Christians think is holy, and attributed to the God of Abraham, Isaac and Jacob. Nothing could be further from the truth.

The popular concept of the black mass is described as follows: a nude woman, her legs spread-eagled and vagina thrust open; with her outstretched fists grasping a black candle made from the fat of un-baptized babies, and a chalice containing the urine of a prostitute (or blood) on her belly. An inverted cross hangs above the altar, and triangular hosts of ergot-laden bread or black-stained turnip are methodically blessed as the priest dutifully slips them in and out of the altar-lady's vaginal area (labia). Then, an invocation to Satan and various demons is followed by an array of prayers and psalms, chanted backwards or interspersed with obscenities, all performed within the confines of a "protective" pentagram drawn on the floor. If, and when the devil appears, he is invariably in the form of a rather eager man wearing the head of a black goat upon his shoulders. Then follows a potpourri of flagellation, prayer book burning, oral sex, masturbation, and orgy, all performed to a background of mockingly recited holy bible verses mixed with vomiting, and spitting on the cross. If a baby can be slaughtered during the ritual, so much the better; for as everyone knows, this is the favorite sport of the Satanist.

ASTRAL PROJECTION (Astral-Sex, Remote Viewing)

In Astral projection, the evil spirit and soul (of the witch), uses soul power to project itself out and make contact with another person's spirit body. They actually project themselves somewhere into the other person's body, and then return, to the hosts spirit. The soul communicates with the witch as to where it was and who it made contact with.

There is a phenomenal amount of power and intelligence in the spirit bodies of humans, especially when those spirit bodies are under control of their soul. Satan has been working steadily throughout the ages

since the fall of Adam, to gain the use of these spiritual bodies for his own evil schemes. Mankind's physical bodies are weak and of little value to Satan, but mankind's spiritual bodies under the conscious control of their souls, are something of great value in the spirit realm. Satan's goal is to teach humans to regain the conscious control of their spiritual bodies. Many people manage to do this, and once this is achieved, these people can actually perceive some of the spirit world as well as the physical world. They can then talk with demons, leave their physical bodies, project their spirit and soul, and with full conscious awareness, go places and do things with what seems to the average human, supernatural power. It is also possible to astral project to a third party,

using another witch as a go between. Witches and warlocks use this astral projection for endless reasons on a regular basis. They are constantly aware of the realm of Satan's kingdom.

Astral projection is very physically demanding for those who use it. It weakens them tremendously. They must be careful when they use it because their mental and physical state may be challenged immediately after doing it. It can be compared to the high of drugs and the coming down period after the high. The high is exhilarating but the coming down is tiring.

Remote viewing

Most astral projection is done from one body to another; however, there are some individuals (witches), that are able to astral project to places without entering a body. They can observe, hear and watch what goes on in other places without entering another body. It is already an accepted activity in the CIA, FBI and KGB spy world of the security service. Many proclaim that regular type spy activity is no longer nearly as necessary, because of this demonic activity being harnessed, supposedly for the good of the security of mankind. In the secret service field they call astral projection "remote viewing" so those talking about it don't realize what is really being spoken. The security services do this in the same manner as the mental health so-called professionals do, as they continuously change the names of anxiety disorders so no one has a clue what they are talking about or what they are referring to. People must pay a brain doctor in order to find out what their diagnosis really means. They make it so they are the only ones with the ability to decipher the code names in plain English.

THE CONNECTION BETWEEN ASTRAL PROJECTION AND WITCHCRAFT ASTRAL SEX

Astral sex is the ability to project ones spirit man into the victims body and have intercourse with it. This is a very common occurrence among Satanists. They literally leave their physical bodies in a dormant state, while they astral project into the body of whoever they want to have sex with. This is one of the reasons many men wake up having an orgasm and women wake up sexually aroused for no particular reason. In many cases, the victim thinks he or she just had a sexual dream, but often this is not the case. Sexual intercourse actually takes place with the senses of intercourse being experienced. This practice is very similar to incubi and succubi demons having sex with individuals. Sex and power is what makes most people join Satanist covens. It is by far their biggest drawing card.

In the Brotherhood (Satanism) the most important attraction for witches and warlocks is the ability to learn how to astral project. Sex and power is what makes most people join Satanist covens. This can be done for many reasons as you can well imagine. Think about the financial and security reasons alone and you can grasp how it can be used for manipulation in many businesses. Many think that one of the reasons we hear so little about spies anymore is because spies are no longer necessary. The agencies who require this secret information now hire witches under the auspices of being a qualified secret agent. Witchcraft in any and all forms is the reason the world's economic system has been under the control of the secret societies from the earliest days of humankind. Anyone who has done any reasonable amount of research into Secret Societies, all of which report to the Black Pope of the Vatican, knows that they control and manipulate the economies of the world. All the real money of the world is in the hands of very few people, but those people are all involved in secret societies whether they be under the huge umbrella of the Freemasons, Jesuits, Knights Of Columbus, Illuminati, or what have you. These secret societies are all under the control of the one who is the liar and deceiver well known to mankind from his origin. Satan is the one in control, always, directly or indirectly. That is why anyone who is not of his kingdom, one who is truly born again, will have no part in making money from manipulation.

However enticing these other reasons may be, sex is the main goal of all astral projection. Witches desire to have sex with individuals that they would never in a million years be able to have sex with, and they can do it as often as they desire, depending on their powers. Astral sex is the ability to project ones spirit man into the victims body and have intercourse with it. This is a very common occurrence among Satanists. They literally leave their physical bodies in a dormant state, while they astral project into the body of whoever they want to have sex with. This is one of the reasons many men wake up having an orgasm and women wake up sexually aroused for no particular reason. In many cases, the victim thinks he or she just had a sexual dream, but often this is not the case. Sexual intercourse actually takes place with the five senses of intercourse being experienced. This practice is very similar to incubi and succubi demons having sex with individuals.

The individuals on the receiving end are often Hollywood stars, musicians, preachers, teachers, politicians, male or female models, and on and on. Many of them are being bombarded constantly with unexplainable sexual desires and urges. Most of them have no idea what's going on, they learn to accept certain things as coming with the territory, rather than realizing they are demonic. You can well imagine the sexual problems they are having if incubus and succubus demons are having sex with them day in and day out. No wonder so many of these people become sexually perverted and end up divorced. Satan is indirectly controlling them and they don't even realize it.

The Roman Catholic church has known about astral projection for centuries, because the Jesuits themselves do it. In Catholicism it's called "bilocation". According to the Catholic Dictionary (page 67) it is described as follows: "Multiple or simultaneous presence of the same substance or soul in two places distant from each other. **Bilocation's have been frequently reported in the lives of the saints.**"

Spectrophilia, not to be confused with "necrophelia", is a form of congenitally sublimated (astral sex). In the case of spectrophilia a non physical partner is not an incubus or succubus but the spirit of the "deceased". A Belgian Roman Catholic priest named abbe Joseph-Antoine Boullan (1824-1893), brought this practice to the forefront. Successful sexual contacts were supposedly made with Cleopatra, Alexander the Great, etc.

ASTRAL PROJECTION AND APPORTING CONNECTION

Astral projection is one of those things in the "soul power" realm that is extremely hard to comprehend, never mind try to explain. Astral projection is the counterfeit, or copycat of a divine mechanism Yahveh used as described in several verses in the Good Book with His Son Yeshua and special prophets like John The Revelator. Apporting is the disappearance of a physical object from one location and its reappearance at another location. The object must dematerialize into the air and then re-materialize. I believe Philip, like Yeshua, vanished. **Acts 8:39-40** "And when they came up out of the water, **the Spirit of Adonai snatched Philip away**; and the eunuch saw him no more, but went on his way rejoicing. But Philip found himself at Azotus; and as he passed through he kept preaching the gospel to all the cities, until he came to Caesarea". Messiah apported from His tomb and then He appeared from nowhere at the house of Cornelious. **John 20:19** "When therefore it was evening, on that day, the first {day} of the week, and when **the doors were shut** where the disciples were, for fear of the Jews, **Yeshua came and stood in their midst**, and said to them, "Peace {be} with you."

The experience of being "born again" is the gateway to the learning experience of walking with Adonai. The power of Adonai is made available to people once they invite Yeshua into their life and they begin to receive the leading of the Holy Spirit. In a similar manner, when Satanists get initiated they receive the ability and power to astral project. As they gain their Satanic seniority they are able to astral project further distances. It is not uncommon for a witch to project herself 500-10,000 miles.

The Bible speaks of a "silver chord" that many believe may be referring to astral projection (Eccl. 12:3-7). Yahveh doesn't want us controlling our spirit body with our soul as such. He wants our spirit to lead our soul so His Holy Spirit can lead us.

A fascinating thing that most Believers don't understand is that they can stop anyone from astral projecting into them if they just ask Yah to cut the tie between that individual's spirit and soul. That separation of soul and spirit you might say, disconnected all the soul power required to astral project.

WHITE AND BLACK MAGIC

The Satanic bible states clearly: "there is no difference between "White" and "Black" magic, except in the smug hypocrisy, guilt ridden righteousness, and self-deceit of the "White" magician himself. In the classical religious tradition, "White" magic is performed for supposed useful good human purposes, and benevolent, while "Black" magic is used for selfish, self-fulfilling, personal power, and evil purposes."

THE THREE CATEGORIES WITCHES AND WARLOCKS INDULGE IN

Learning to effectively utilize the command to LOOK, is an integral part of a witch's or warlocks training.

To manipulate a person, you must first be able to attract them and hold their attention. The three methods by which the command to look and hold their attention can be accomplished are the utilization of sex, sentiment, or wonder, or any combination of these.

A. Sexual enticement--A man or woman may use their natural good looks or physical attributes to entice a recruit to participate with them sexually. This is the first step and a continuation of this brings them into the midst of more and more sexual acts with various other people. To someone sexually aroused, it is the dream of all dreams come true, free unreserved sex with multiple parties.

B. Sentiment--Usually older women use this attractant. The "cookie lady" type witch uses friendly, lovable enticement to attract her prey. Like a venus fly trap entices the flies to its sweet appearance.

C. Wonder theme--This category applies to men and women who are strange, awesome, and mysterious in appearance. By making her strange appearance work for her, a witch can manipulate people simply because they are fearful of the consequences should they not do as she asks. Manipulation is the key to domination, which is witchcraft.

Oder is also an important factor used for manipulation by witches and warlocks. The natural body odours of males and females is a natural instinctive attractant for sexual stimulation. Letting ones body oder be prevalent is a way to stimulate the natural animalistic instincts that humans have in relation to sexual acts or confrontations.

The enchanting smell of cooking food can be used by a witch to entice a male recruit as well as the taste of good food.

THE THREE TYPES OF SATANIC RITUALS

1. The sex ritual is commonly known as a love charm or spell. The purpose in performing such a ritual, is to create a desire on the part of the person whom you desire to have sex with. By using a fellow brotherhood member, one symbolically and physically incants sex with the desired partner in a ritual atmosphere. Astral sex is associated with this. During high sex ceremonies, it is not uncommon for witches to have demonic sex with Baphomet (the half man half goat), that represents Satan. Daggers are often used also to impregnate the female tied down to the alter with scarlet cords.
2. The compassionate ritual is a ritual for the purpose of helping others or oneself. This ritual is used for personal health, welfare, business activities, material success, intellectual improvement, etc.
3. The destruction ritual is used for those the witch hates or is angry at. This ritual uses hexes or incantations to destroy the person that is being hexed in many various ways. This is by far the most common ritual.

Timing is very important for witches and warlocks. There are better and worse times to cast spells on victims. The obvious time of the 24 hour day that people are the least protected, is when they are sleeping. This is the time of the day spells have most effect, when the recipient is unaware of what is happening to him or her in the spiritual realm. There are even better parts of our natural sleep time that are more effectively attacked, then others according to what sleep mode we are in during various hours of the night.

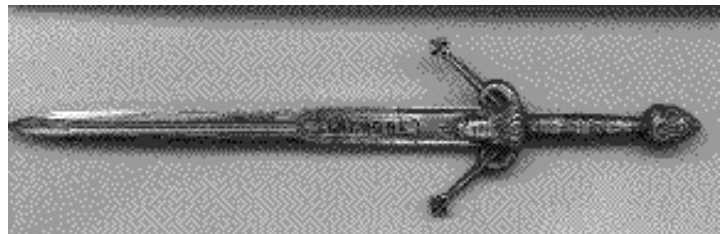

DEVICES USED IN SATANIC RITUALS

CLOTHING

Black robes are usually worn by men and woman during rituals. Women, however, sometimes wear black clothing that is extremely sexual in nature instead of the gowns. Black represents the “power of darkness”. Dominant members of Satanic covens often are unable to wear any color but black on their chest during their day to day activities. They simply cannot wear other colors. When they try to, they smother.

ALTAR

Because Satanism is a religion of the flesh, usually nude females are used as the altar for rituals. A doctors examination table is also often used as an altar. In some cases a 3 to 4 foot high by 5 to 6 foot long trapezoidal (a quadrilateral plane figure having 2 parallel and 2 non parallel sides) altar is used with the nude female laying on top.

SYMBOL OF BAPHOMET

The five pointed star is called a “pentacle” or a “pentagram”. The demonic stars on most national flags are occult pentagrams. The Baphomet is a five pointed star with the image of a part man, part woman, part goat in it. One point at the center bottom (his chin) and two at the top (his horns). This was the symbol used many years ago by the Knights of Templar (Masons) to represent Satan.

The goat is the animal symbolically used to indicate the male sexual energy inherent in the process of fertility and creation. The image of the goat appears throughout history in regards to pagan gods and goddesses of fertility. Examples are: Isis, Ishtar, Semiramis, Diana, Madonna, Pan, Dionysus, etc. It is commonly used as a fertility symbol in the occult secret societies like Freemasonry, Illuminati, K of C, Jesuits, etc.

This symbol has had various names throughout the centuries. Some of these names are: The goat of Mendes, The goat of a thousand young, The black goat, The Judas goat, often, the Scape-goat. The Baphomet represents the generous fertility of a goat. It is the opposite of the sheep, that is, the lamb of Adonai and the saints, as depicted in Matt. 25:31-34.

The pentagram five points are used many ways in pagan worship. One description was that the five points represented the arms, legs and head of a person. The Roman Catholic crusaders often wore the pentagram as their coat of arms.

The occult star/symbol known as the pentagram, is thought to be that which is referred to in:

Acts 7:43 “You also took along the Tabernacle of Moloch and the Star of the god Rompha, the images which you made to worship them. I also will remove you beyond Babylon”. (See also Amos 5:25)

The Pentagon, the building housing the defence department of the United States is called such, because it is shaped as an occult secret symbol for reasons too complex to explain here. The flag of the United

States, Comoros, Mauritania, Turkey, Liberia, Pakistan and Malaysia are a few more examples of where we can clearly see the occult pentagrams as national banners. It is certainly no wonder the moral values of countries such as these are of sewer-like quality in most cases.

CANDLES

Candles in Satanism represent the “light of Lucifer”, the bearer of light, enlightenment, the living flame, burning desire, and the flames of the pit. Black and white candles are used during rituals. Black candles are used to illuminate the ritual chamber (room), and one single white candle is used to represent the hypocrisy of the white magic magicians. Black candles are used for power and success for the participants during the rituals, and white candles are used for the destruction of enemies, as they are used to burn the written curses used by the occult members, making them take affect.

BELLS

The bell ringing three times, is used to begin and end the rituals. At Christian meetings of False Prophets, you will often hear a bell ring three times prior to services starting. It is sometimes done on purpose, sometimes not.

CHALICE

The chalice is called the chalice of Ecstasy, usually made of silver, (never gold). It is used for drinking various potions, from blood to urine.

ELIXIR

The Elixir is the fluid drunk by the members of the brotherhood. As the Pagan of old used liquor, Satanists today use various concoctions. It is symbolic of the wine drunk by Christian people during communion.

WORD

The sword of power is symbolic of the aggressive nature of Satan. It is also represented as a wand of Satanic power by witches and magicians.

PHALLUS/OBELISK

The phallus (lingam/obelisk) is a pagan fertility symbol from the mystery religions of Rome. It simply represents an erect penis (symbolic of the Buddhist Shiva).

Buddhists worship the male and female sexual organs known to them as Lingam (phallus) and Yoni (vulva/vagina). They have multiple statues, carvings, and pictures, giving reverence to the fertility parts of human beings. If you walk the streets of India and Nepal, you will find abundant phallus ornaments (usually made of stone), where people worship and pay tribute to these erect penises as sacred symbols of Shiva. When lingam and yoni are put together they become an image called “yonilinga”. In the modern Western world we find the phallus in the form of obelisks (towers), in front of many Roman Catholic churches, Washington Square, etc. In more common places, the obelisk is adorned on top of many Christian churches, commonly called steeples, with the pagan cross symbol attached. The phallus symbol is represented in the Roman Catholic church as the aspergillum, or “holy water” sprinkler.

GONG

The gong used in Satanism is for calling up the forces of darkness. It is usually only used during formal rituals.

PARCHMENT PAPER

Parchment is used to write oaths and curses on. After the curse is written, the parchment is burned over a candle supposedly commencing the curse. Parchment is symbolic of the natural skin of animals. The skin used for rituals is that of a goat.

ENOCHIAN

The magical demonic language used in Satanic rituals is Enochian, a language thought to be older than Sanskrit. It resembles Arabic, Hebrew and Latin in some respects. There are nineteen Enochian “keys” or “calls” (magical chants) used in Satanic rituals.

DIRECT PHYSICAL WOUNDS

Satanists frequently use “brush acid” to cause illness directly on a person. Brush acid is a concoction of chemicals that cause burning, rash, etc. on the recipient. They often use astral-projection to put brush acid on unsuspecting people, by way of utensils, door knobs, car door handles, hammers, etc. or, directly apply it on

their skin. Demons can also use insects to cause serious physical damage. These type of demon bites are called "petechiae" and are simply removed with anointing oil.

Other types of demonic wounds are: direct physical damage, poisoning, inserts and illness.

POISON

Some of the common poison ingredients used in witchcraft are: tannis root, cyanide, curare, muckroot, bloodroot, ova ursi oil, vervain oil, quick silver (mercury), mandrake, valerain root, ginseng root, double cross powder (cyanide), hemlock, DMSO/ dimethylsulfoxide (horse anti-inflammatory agent), and wormroot.

PUSH-PINS--CURSE PINS--SOUL SPIRIT PINS

INSERTS

Note: All of the inserts and push pins in the following image are actual size. All pins and inserts shown, came out of one person.

There are six common types of inserts used by Satanists. They are: push-pins, curse-pins, nail-pins, Satan's web, crystals, dental inserts, and splinters.

The insert pin is used to link the soul and spirit of the person, so they can connect into the spirit world. The pins are inserted in a variety of places in the Satanists body as permanent "receivers," under the control of the coven members, in case a person ever tries to leave the craft. They act like demonic radio transmitters. The individual is then monitored as to their whereabouts for destruction purposes. There are demons assigned to these inserts and their job is to kill anyone who leaves the group. This is another way witches gain contact into the spirit world. They gain conscious control over their spirit and control their spirit body with their soul. This is the exact opposite of what the Bible clearly reveals. We are to always be lead by our spirit which is to be directed by the Holy Spirit only. When man directs the use of his soul, it is called "soul power". This is what the New Agers commonly refer to as "inner self", or "self-consciousness".

These inserts are sometimes placed in the ankle, knee, wrist, etc., depending on the group. Some curse-pins are inserted just under the skin and are easily noticeable. When the pin is inserted into the vagina during a special ritual, it is called a push-pin. Push-pins are slivers of metal, bone, rock or wood that are used as objects that demons cling onto.

A common kind of electronic demonic pin is a thermal chemical breaker (fuse) as used in small appliances, like hair dryers, irons, etc., about 1 1/2 inch long. The center part, being round, is like a transistor with solid wire strips, extending slightly at each end. The metal pin is really nothing but symbolic, it is the demon attached to it that has significance. The pin, with its curse, acts as a staging area, (mark), for the demon to possess. It becomes the territory of the demon as long as it is implanted in the individual.

These inserts are associated with the mark of the beast spoken of in the Biblical tribulation. Most people don't realize, this mark associated with the mark of the beast, has been used by the Satanists for over 20 years now. This may be considered one form of "the mark of the beast". Some of the more dominant brotherhood members, actually take these pins in their right hand, specifically to blaspheme Adonai. As we all know, there is no hope for anyone who takes this mark in his right hand or forehead, as per Rev. 14:9-11,16:2.

Other non electric pins can be various lengths and diameters, but they are usually the equivalent of a steel needle, about the size of a large finishing nail, with a sharp point at one end and the head cut off, varying in length of one to two inches.

Some of the symptoms which occur with the link between the soul and spirit: Frequent visions or communication with the spirit world. Ability to control when a person will receive a vision or communication from the spirit world. Ability to see auras; (auras are various types and colors of light around people and things). Ability to see demons frequently.

There are many physical illnesses caused by the demons attached to inserts. In most cases, the demons set into motion a physical disease that continues on its own. Demons often cause severe burning pains called "paresthesias" on a persons skin, usually brought on by intense itching.

SATAN'S WEB--Is a piece of fine silky material about 2 inches by 2 inches that is swallowed during a ritual. The web remains inactive in the persons digestive system. It is demonically protected. If the person tries to leave the group, it activates demonically, and causes various sorts of severe stomach pain and bleeding, that can kill. The pain and bleeding cannot be explained by doctors, because it is demonic and spiritual. The curse of the web must be dealt with specifically, through prayer, to be destroyed.

CRYSTALS--Crystals are very small parasites that are crystalline in nature. They are living parasites that are extremely hard to find. They are often inserted under the skin, or in the blood stream, where they are rarely detected. These crystals are rarely used.

DENTAL INSERTS--Dental inserts are used in the higher ranking members of the satanic groups. These tiny computer chips are inserted into a tooth, or in the gums of the witch, so they can be tracked by satellite wherever they go. They act as a homing device so that the individual can be followed, or traced to a precise location for security reasons. These chips can also be slipped into the right hand or forehead, again, as the mark of the beast.

MARKS

A mark is in essence an identifying object. When a witch wants to send out a demon against another person, the demon doesn't automatically know who that person is. The quickest way is to present the demon with an identifying mark or object, such as, a piece of a person's clothing, hair, fingernail clippings, jewelry, etc.

This mark is as effective as the human fingerprint is for ID. The demon then goes directly to the marked person and does what it is told to do.

HAG-STONES

Most commonly used hag-stones are made of onyx but are often any type of gem or crystal. Hag-stones are used for communication between witches or warlocks. They are usually worn on a piece of jewelry. Special incantations are used over the stones, along with rubbing the stone etc., to summon the demon being used for communication. They help to communicate a message to the other person regardless of what distance there is between them. These stones often glow or light up to signify the demons presence.

CAGES-BOXES

Caging is a frequent curse/incantation used by Satanists. The victim is (in the spirit world), put in a cage, so they cannot see the wrong actions of someone, or so they will believe lies about someone. They have spiritual blinders put on their mind, so as not to hear, see or believe what is taking place in front of them. Satanists use this effect frequently, so that Christians think they are people of YHVH and cannot discern the truth. When the victim is caged, the Satanist can put all kinds of thoughts in their mind that don't line up with the Word of Yahveh. This is one of the most common methods used to get churches to adapt unbiblical demonic doctrine, as has happened throughout the centuries.

Some cages are made by using sticks of wood, set in a square pattern on the ground, symbolic of the curse. The persons name is then written in the square. There are various materials and patterns used for caging. To the uninformed person, these patterns on the ground would look like natural debris.

LEY-LINES

To use ley-lines, a Satanist does an incantation over a stick of wood, used as a wand. Sometimes they drag it on the ground beside them as they claim a territory for a particular curse. The line marks off a territory in the demonic spirit world for various reasons. Depending on the situation; when someone enters into that marked territory, multiple things can happen, depending on the curse that has been placed. For example: ones foot may start to burn if they step onto ground marked off and dedicated to Satan for his principalities, powers, and rulers. The following pages are for those serious warriors that want to know their enemy better. I don't go into depth here, because I don't want to promote Satanism in any way. My objective is to outline some of the things that should be of interest to all "Bible Believing People" everywhere. It is a simple fact, that it is easier to destroy your enemy if you know things about him. Here I have laid out some very basic items of interest, that should open up the secrecy of Satanism as an occult worship system. Please beware, this is quite graphic.
